

Epoxy Cutting Board

Epoxy art cutting board is sure to steal centre stage. Epoxy Flooring Brisbane creation: Stunning resin art into wooden cutting board that captures the essence of art in just one board.

Built to give you years of enjoyment

Bring the beauty of art into your own kitchen with wooden epoxy boards.

Epoxy Flooring Brisbane is creating unique handmade design on wooden cutting boards featuring stunning resin art. Inspired by colours, we can create any design that can capture the essence of natural landscapes. From ocean-like blues to cloud-like magenta swirls, Epoxy Flooring Brisbane uses a variety of resin hues that beautifully merge together to create vibrant fusions of colour and pattern. If you are fascinated and mesmerized by the sky and light, Epoxy Flooring Brisbane aims to create artworks that capture the awe-inspiring emotion that a dramatic landscape evokes.

It takes 2 to 3 days to complete the board. Before the nontoxic epoxy is applied to the board, tapes are stretched across the board to create a clean line and protect the rest of the wood with cling film. Colours are then poured onto the exposed area, where chemical reaction causes the colours to mix together in abstract patterns. Once complete, each board is left to dry for around 24 hours.

Once the resin becomes sticky to smooth and shiny, the resulting surface is extremely versatile and hard-wearing. And with multiple shapes and sizes, the board can be used to chop and prepare food, serve bread and cheese, or just add contemporary flair to your kitchen!

Epoxy Flooring Brisbane promises that you will not be disappointed with this product.

The Epoxy boards design can also be applied to the floor, kitchen counter top/benchtap, bar, nightclubs, dining tables, coffee tables etc will give a unique look and will take centre stage at any gathering or special occasion. It is also easy to maintain.

Every kitchen needs a serving board, doesn't yours deserve a beautiful, functional piece of kitchen art which can be left out and displayed!

So Does Your Kitchen, Restaurant, Bar, or a Friend Needs a Customised Epoxy Cutting Board?
