

Is Epoxy Flooring Good for Homes?

If you're still undecided about your home flooring and you want it to be uniquely good for homes, then epoxy flooring is for you. Most home owners are a bit skeptic about having epoxy floors, they want to stick with the same old norms as ceramic tile, terrazzo, or wood for their floors.

There's nothing wrong about it, except that they are missing something really good.

So, Is Epoxy Flooring Good For Homes?

Epoxy flooring is usually used in industrial spaces, so it built a known reputation for that usage only. But, if you are worried that installing epoxy at your home will make it look like a workshop or garage, then you're worrying for nothing.

Epoxy can bring out more from your floors, it can transform your residential space or your bathroom floors to a whole new

level.

And, there's also a wide array of design and colour options to choose from to make a custom floor design.

Having an epoxy flooring can increase your home value too.

In addition, you can even make your epoxy floors glow in dark! Isn't it amazing?

At Epoxy Flooring Brisbane, we could make it happen! We are the best flooring specialist in Brisbane, guaranteed to provide you the best services in the most affordable price. So, are you excited to spark up your floors? Let's get started!

Why Epoxy Flooring?

Epoxy flooring is done with the use of resins and hardeners, and chemical reaction transforms the mixture from liquid to solid state. You may want to believe that it's magic, but it's just really science showing off itself. Read more about it by checking out Epoxy Flooring VS Concrete Polishing.

Today, epoxy flooring is getting popular to home owners and architects. It is being used more and more because of its fast installation and affordability. Well, when deciding whether to go with epoxy or not, people frequently ask **if epoxy, is safe for homes**. The answer is **YES**, it is safe. Most epoxy products available in the market nowadays have little or no trace of Volatile Organic Compounds (VOC). Though it's generally safe, it is advisable not to breathe in the odour it generates during the installation process.

Benefits Of Having Epoxy Flooring For Your Homes

Furthermore, every type of flooring solution has their own pros and cons. But choosing epoxy flooring gives more benefits for you and your home. Listed down below are the benefits of having epoxy flooring for your homes

- **Durable**

This is probably one of epoxy floor's top qualities. Epoxy flooring is guaranteed to resist all types of impact, that's why it is usually installed in workshops and showrooms. Though of course if intended, taking a pretty sharp object on its surface will cause damage to this sturdy material.

- **Beautiful and sleek**

Aesthetically pleasing floor is a must-have for homes. It makes you more confident when friends and family come to visit your house. Epoxy floor has a seamless appearance, no dirt and grout sticking out. Plus, the glossy finish gives a clean and professional vibe, we can have matt finish based on clients need. If you want to go for a modern look, then epoxy floor is for you.

- **Safe**

If you are still in doubt, read this again: **Epoxy is safe for homes**. It covers your hard floors that makes it slip resistant, scratch resistant, stain resistant, shock resistant, and less abrasive compared to concrete.

- **Easy to clean**

Epoxy flooring is easy to maintain. You could clean it effortlessly, just mop or wipe it with a cloth to remove any spills. Oil and other substances don't leave a stain, too, leaving it flawless.

- **Long-lasting**

It lasts longer than any other type of flooring. Proper installation plays a big factor for its longevity. It can last several years without cracking or peeling, Just look like it has been done today.

- **Affordable**

Epoxy can be installed directly on the floor, all you need is a clean and stable concrete or tiled floor and we'll be good to go. Because of this installation cost

are lower, the per square foot cost of epoxy floor is reasonably hard to beat.

- **Customisable**

It's flawless, smooth, clean, glossy... surely, it's highly customisable as well. With epoxy as your choice of flooring, we can't let it be plain. Express yourself with it, add colours that you like. Make it glow in dark if you want, it would be amazing seeing stars even when you're looking down. There are also texture options if the glossiness is too much for you. There are infinite design combinations that will totally level up your plain concrete floor.

Do Many People Choose Epoxy For Their Floors?

More people are considering epoxy floors for their homes, and even more already did. It transforms homes by breathing extraordinary glow onto your floors. The glossy seamless finish that epoxy floors create gives an impressive look to your living space.

We're not just talking about making your garage or storage rooms look more elegant.
