Bring the beauty of art into your own kitchen  
with wooden epoxy boards

This festive season Epoxy Flooring Brisbane is creating a unique handmade design on wooden cutting boards featuring stunning resin art.

Inspired by colours, we can create any design that can capture the essence of natural landscapes. From ocean-like blues to cloud-like magenta swirls, Epoxy Flooring Brisbane uses a variety of resin hues that beautifully merge together to create vibrant fusions of colour and pattern.

If you are fascinated and mesmerized by the sky and light, Epoxy Flooring Brisbane aims to create artworks that capture the awe-inspiring emotion that a dramatic landscape evokes.

These board is suitable as a nibble  
for 2 or a  
grazing platter when you're next entertaining, and these resin

art decorated  
boards will delight the young and old.

The handle area of your board is carefully decorated with resin art in the colours of your choice. Epoxy Flooring Brisbane can also create a matching cheese knife and coasters for the ultimate set. Add a wow factor to your next grazing board.

---

## **What can these boards use for?**

---

You can either pile them high with fruit, cheese, crackers, cold meat and nuts – these resin arts serving boards are sure to steal centre stage.

In addition, these serving boards will make the excellent and perfect gift for a foodie friend, a milestone birthday, wedding Mother's day or father's day Christmas, corporate events, spas, Hotels, Restaurants or a housewarming. All of them now can also be customised. Choose the shape and colours of your choice and add a matching knife to make a beautiful set.

---

# Materials Used to create the wooden epoxy board

---

- Thick set Epoxy
  - Pigments
  - Tuck Tape
  - Micromesh Pad
  - Mineral Oil
- 

## Time taken to produce the board.

---

It takes 2 to 3 days to complete the board. Before the nontoxic epoxy is applied to the board, tapes are stretched across the board to create a clean line and protect the rest of the wood with cling film. Colours are then poured onto the exposed area, where chemical reaction causes the colours to mix together in abstract patterns. Once complete, each board is left to dry for around 24 hours.

Once the resin becomes sticky to smooth and shiny, the resulting surface is extremely versatile and hard-wearing. And with multiple shapes and sizes, the board can be used to chop and prepare food, serve bread and cheese, or just add contemporary flair to your kitchen!

■

This stunning piece of functional art has been created on a wooden board with resin river like colors running from the edges of the board. This classy combination of colour is great addition to any home. Epoxy Flooring Brisbane promises that you will not be disappointed with this product.

The Epoxy boards design can also be applied to floor, kitchen counter top / benchtop, bar, nightclubs, dining tables, coffee tables etc will give a unique look and will take centre stage at any gathering or special occasion. It is also easy to maintain.

Every board is finished to a extraordinary smooth as glass finish. You have to feel it to believe it.

All serving boards are pre-seasoned with mineral oil board conditioner. Therefore ready to use when you receive it.

Every kitchen needs a serving board, doesn't yours deserve a

beautiful, functional piece of kitchen art which can be left out and displayed!

**\*NOTE\***

Although all boards are constructed with the exact stated woods, the wood grain and colours may vary throughout, due to the uniqueness of all natural woods. There may be natural imperfections in the wood, this is the nature of the product and is not a defect.

---

## **Instruction to keep the board beautiful**

---

To clean;

- Hand wash & dry after each use with warm soapy water & dry thoroughly.
- 

## **To keep the grain looking new**

- 
- Occasionally rub down with a food safe sealant.
  - Keep out of direct sunlight for long periods of time.
  - Do not put in dishwasher.
  - Do not submerge or soak in water.
- 

## To disinfect

---

Cut a lemon wedge and rub it lightly in circular motion over board. Or, spray with 1/2 water 1/2 vinegar, wipe down with a damp cloth, let sit until completely dry & re-apply mineral oil or another sealant.

---

## So is epoxy food safe?

---

Epoxy has become extremely popular for items found in the kitchen its important to use a good brand of epoxy and Epoxy Flooring Brisbane ensures to use good quality materials and cures

all epoxy properly.
